LEC builds the capacity of leaders in the CAC movement to provide dynamic, purposeful leadership to their organizations. The LEC vision is to create strong, healthy, effective organizations and partnerships. By taking the time for professional growth and development, CAC leaders can advance the ultimate success of their organization's mission.

CAC leaders can be extremely isolated in their roles. LEC creates a unique support network of colleagues and offers an exceptional growth opportunity.

- Inspires CAC leaders to lead from a compassionate, strengths-based perspective.
- Creates peer networks in order to strengthen the collective CAC leadership and encourage continuous improvement in the CAC model.
- Teaches the best of organization theory to the benefit of their organizations.
- Provides professional individual coaching tailored to each participant.
